

# CRITICAL INFRASTRUCTURE SECURITY AND HUMANITARIAN MINE ACTION

17  
05

## Critical Infrastructure Security and Humanitarian Mine Action to be discussed by Security Experts on May 17 in Kyiv.

On May 17 the Mercure Conference Hall in Kyiv will lodge the Forum on 'Security of Critical Infrastructure and Humanitarian Mine Action' that will bring together Ukrainian Security professionals to address acute issues of life safety restoration, protection of critical infrastructure, industry and energy objects, and speeding up the mine-clearing process in de-occupied territories.

*The Event organizer is Euroindex, the founder of SECURITY 2.0 exhibiting brand (SECURITY exhibitions). The co-organizer is the League of Defense Enterprises and the Association of Sappers of Ukraine.*

The Forum has its aim to unite Security experts for the sake of our common victory and discuss the issues involving the recovery of life safety in the country, restoration and protection of critical infrastructure, industry and energy objects, bringing back full-fledged life to de-occupied territories and particularly to farming lands which is significant for food supply security in Ukraine and abroad.

Representatives of the government, industry associations, manufacturers, suppliers of equipment and solutions of world famous brands will join together to discuss the following aspects:

**Technologies and Solutions for Critical Infrastructure Protection**

**Integrated Industry and Energy Economy Safety and Security**

**Life Safety. Mine Action**

To participate in the Forum we invite representatives of state and local authorities, ministries and departments, territorial communities and regional state administrations, power industry and construction, critical infrastructure, agriculture and transport sector, relevant associations, international societies and foundations, manufacturers and suppliers of integrated security solutions.
